**Company Background:** *Founded in 1991, Metallic Building Materials LLC. (MBM) is a well-established Stockist & Distributor of quality products across the UAE and the Arabian Gulf, and continually expanding throughout the region.*

**Business Description:** *We are a project-oriented company, headquartered in Dubai, with branch offices in Oman & Qatar and affiliations in Bahrain, Kuwait & Saudi Arabia with agreed sole distributorship of various engineering companies in the United States and Europe.*

*Our general business practices include approaching builders and contractors directly to fulfil their building needs through our expert sales staff.*

**Products/Services:** *We carry a wide range of products implemented in HVAC, firefighting, and plumbing applications such as Pressure Vessels, Air Separators, Dosing Pots, Balancing Valves, Pressure Independent Control Valves etc. and Pipe Hangers & Clamps for supporting Chilled Water Pipes, Sprinkler & Plumbing Lines.*

**Companies Represented:** *We at MBM proudly represent the following world-renowned companies:*

**Company Strengths:** *Our company's strengths lie not only in our assets and quality products, but also in our people who work diligently to ensure that our customers are happy throughout their experience with MBM. We consistently strive to hire the most professional and qualified talent and train them locally and overseas to meet our company's working standards.*

*We also pride ourselves in providing top-notch technical sales and support as and when required to secure our customers' satisfaction.*

**Mission Statement:** *To build and maintain long term relationships with our customers and ensure that they receive the best and most professional services from our end.*

**Vision:** *To provide quality technical products that meet our customers' needs.*
